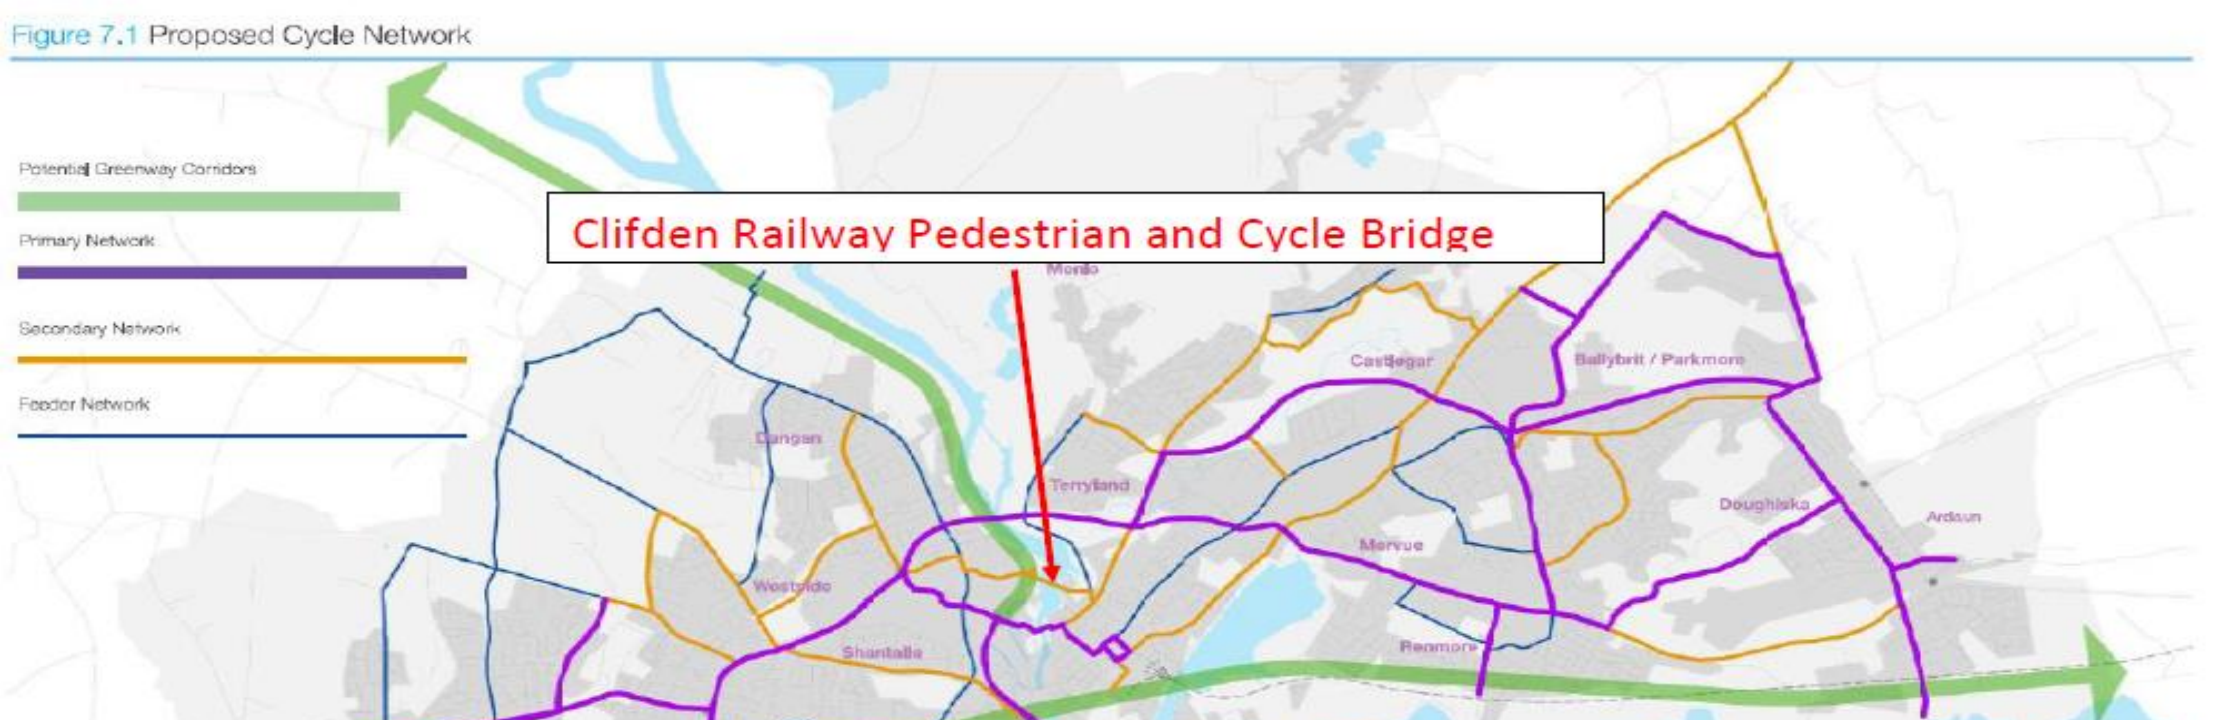
Galway Transport Strategy (GTS)

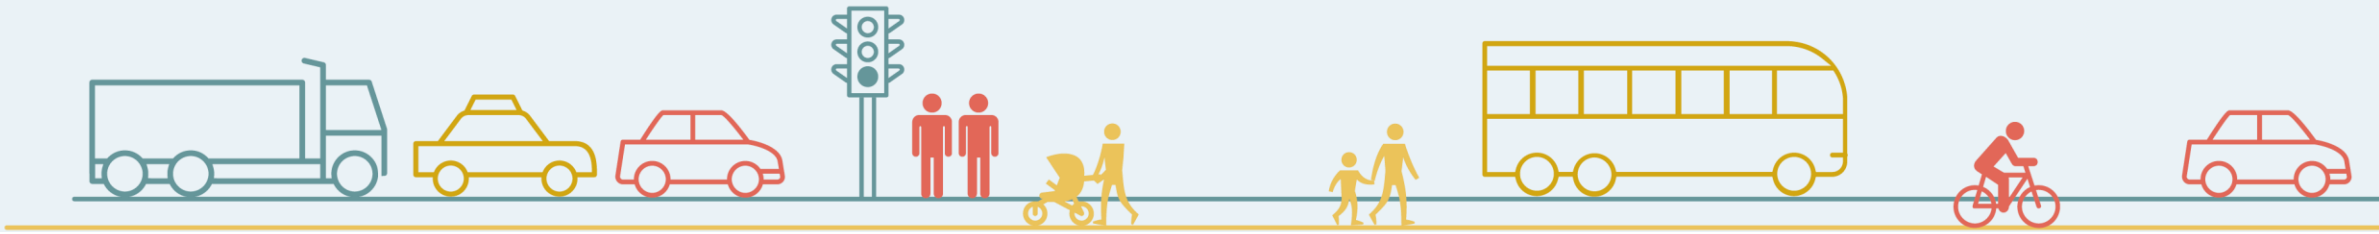


The secondary Cycle Network in the GTS includes for a new bridge for pedestrians and cyclists over the river Corrib.

This will provide cyclists and pedestrians with improved linkage into the City, accessing employment, retail, education and public realm

Objectives

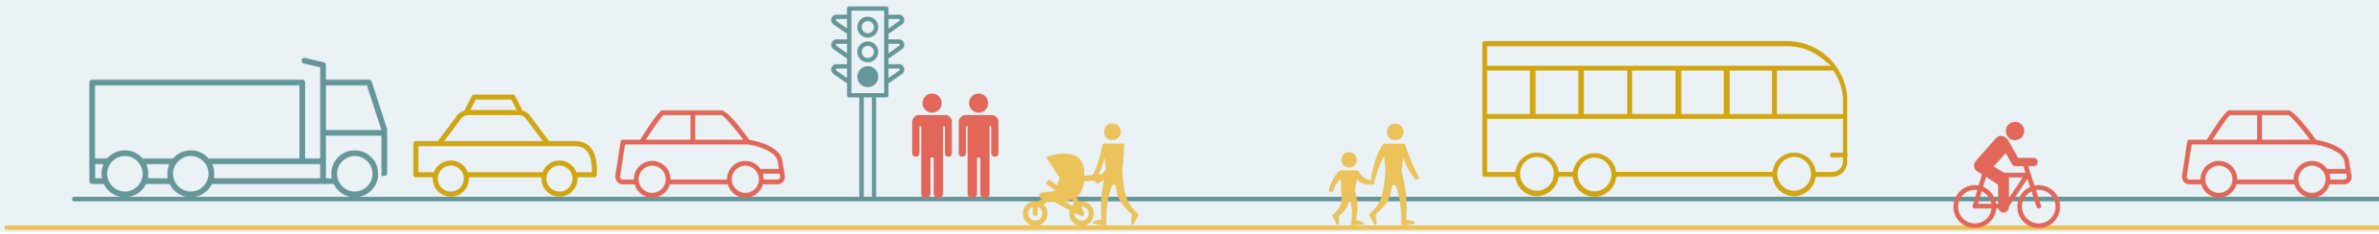
1. Facilitate a modal shift from private cars to more sustainable modes of transport.
2. Create a new amenity space for Galway City that connects river walks and cycle trails
3. Enhance Galway City by creating tourism and employment.
4. Support emission reduction targets under the Government Climate Action Plan
5. Reduce car dependency for residents/tourists of Galway City
6. Increase permeability within the City



Funders

Urban Regeneration and Development Fund have committed €5.5m to the project

National Transport Authority will support funding the balance



Project Delivery

NTA Project Approval Guideline Phases:

Phase 1 – Scope & Purpose

Phase 2 – Concept Development & Option Selection (current phase) – a public consultation will take place in the near future

<u>Future phases</u>

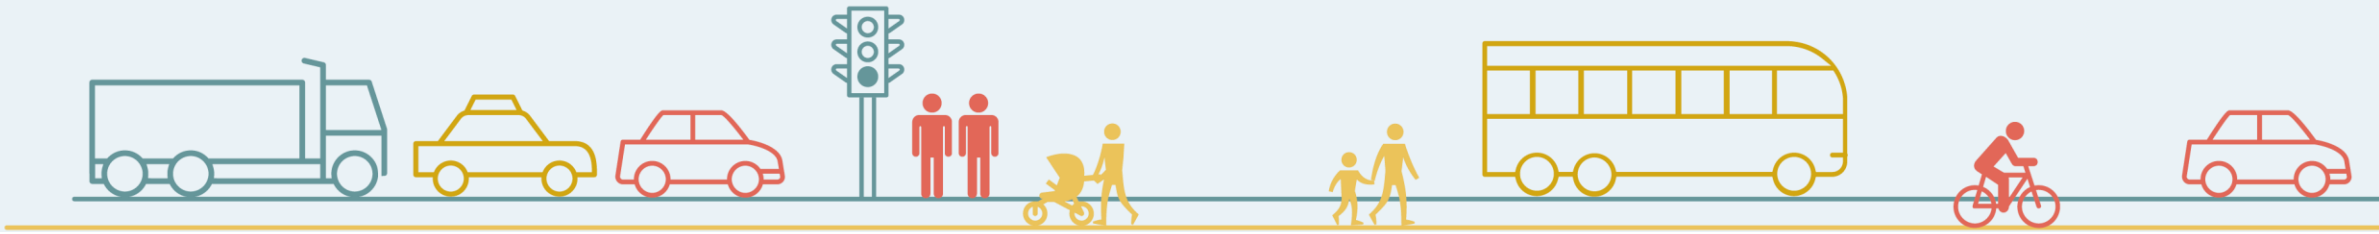
Phase 3 – Preliminary Design

Phase 4 – Statutory Process

Phase 5 – Detailed Design and Procurement

Phase 6 – Construction & Implementation

Phase 7 – Close-out & Review



Content

Overriding Purpose

Provide a New Public Realm Area

Support the Tourism Sector

Provide an Architecturally Sensitive River Crossing

Deliver Targets in the Metropolitan Area Strategic Plans (MASP)

Create Spaces for Physical Activity, Health and Wellbeing for the people of Galway
